TrimLock Ltd

Siding Installations!

TrimLock is a new insulated siding system, manufactured in Alberta, that creates a high-quality modern look. The panels are specifically designed using a proprietary procedure that applies acrylic stucco to the surface of 2 inch EPS foam insulation for a 7.5 R-value rating.

Quick Facts

- Lower cost compared to onsite stucco application and similar to cement products
- Acrylic stucco finish is fire retardant
- Reduces heating and cooling cost
- Retrofits qualify for Energy Efficiency Alberta's home improvement rebates
- Long maintenance free life

Rebates of up to \$3,500 are available for the installation of new insulation in your home. EnSegs will provide more details and walk you through the process.

Retro 1,300 sq. ft. bungalow	Current	After	Rebate
Exterior Walls	R-12	R-19.5 (2 inch)	~\$590
	R-12	R-37 (4 inch)	~\$1,035
